

**Biography: Susan Ash-Lindsay, Director:**

Susan has expressed her keen interest in improving the health and well-being of seniors and keeping them in their homes and communities.

With approximately 10 years of recent experience as Power of Attorney, caregiver and advocate for three senior citizens who suffer from chronic and emergent health issues, Susan understands the importance and value for individuals to continue living at home, in their communities, with some measure of independence.

Susan recently retired after 40 years of working steadily in both the private sector and large corporations. She brings experience in corporate communications, law, benefits administration, hospitality management, and general office administration. Susan was also a partner in a venture for children that continues to seek and promote imagination and creativity. She also established and operated a charitable organization for several years before arranging others to take over leadership.

The Nominating Committee met with Susan in June and has expressed their opinion and confidence in the diversity of skills and professional experience Susan has to bring to the Board of Directors that will be a tremendous asset to the organization and the Board.

Susan and her family have vacationed and lived in the Westport area for many years.
